WORK EXPERIENCE

Figma, **Campus Leader**

San Francisco, CA | Aug 2025 – Present

- Selected as 1 of 181 from 1,500+ applicants; led 4 hands-on workshops for ~30 students each on AI-powered design tools including Figma Make and Figma AI.
- Grew the campus design community through workshop programming, event graphics, and peer outreach, contributing to a 25% increase in event attendance.
- Co-led FigBuild, Figma's national student designathon, managing a \$5K+ budget and facilitating 3 design sprints.

Love Lives in SF, **Visual Design Intern**

San Francisco, CA | Jan – May 2026

- Designed and shipped a nonprofit website end-to-end as sole designer to support an active fundraising round, including an events page, gallery, and brand refresh.
- Conducted 8 user interviews and observational research to shape the site's information architecture and visual direction, then shipped on Framer, driving a 35% traffic increase and 3-minute average session duration within 30 days of launch.

California College of the Arts, **Graduate TA (Interaction Design)**

San Francisco, CA | Aug 2025 – Jan 2026

- Mentored 24 students through prep and critiques on visual design, typography, and accessibility.

PROS Software, **Product Design Intern**

Houston, TX | Jun – Aug 2025

- Co-led the redesign of a flight map used across 130+ airlines, reorienting the interface around fare discovery workflows and testing concepts through interactive Claude Code prototypes, improving fare findability by 30% and reducing map abandonment by 45%.
- Crafted AI-chat components and led design strategy for an airline pricing platform overhaul, where 45% of analysts were new to the industry, making complex pricing data intuitive and earning stakeholder and airline partner sign-off on conceptual designs.

SnapSplit (Startup), **Product Designer**

Remote | Dec 2023 – Sep 2024

- Defined the branding system and redesigned the bill-splitting and expense tracking flows as sole designer, cutting core task time from 4 minutes to 30 seconds, iterating with Claude Code prototypes and validating with 11 users through usability testing.
- Partnered with developers to resolve flow bottlenecks through QA and component iteration, reducing user abandonment by 40%.

Democratic National Committee, **Digital Design Intern**

Washington, D.C. | Jun – Sep 2023

- Delivered 40+ digital assets for the Biden-Harris campaign and broader Democratic initiatives, including social posts, banner ads, email graphics, event materials, and merchandise adapting to a live brand transition.
- Drove a 22% increase in engagement across Instagram and TikTok by delivering accessible, on-brand content at high volume, managing concurrent deadlines, integrating feedback, and ensuring WCAG compliance.

PROJECTS

Popple, **Personal Project**

popple.pages.dev

- Built a gamified to-do app where tasks become interactive; designed assets and pages in Figma, refined animations, and built and deployed the app using Claude Code, with Cloudflare R2 for storage; currently expanding into native app development through Swift.

EDUCATION

California College of the Arts, **MDes Interaction Design**

Expected June 2026

Merit Scholarship recipient

Williams College, **B.S. Psychology**

June 2023

Minors in Neuroscience and Latino Studies

SKILLS

Methods: Vibe Design, Interaction Design, User Research, User Interviews, User Flows, Usability Testing, Accessibility (WCAG), Visual Design, Prototyping, Wireframing, Design Systems, Information Architecture, Engineering Handoffs, Product Strategy, Storytelling

Tools: Claude Code, Figma, Framer, Adobe Creative Suite, Jitter, Figma Make, Cursor, GitHub

Development: HTML, CSS, JavaScript, TypeScript, React, Tailwind, Git
